

Bay City Electric Light & Power 2025 Residential Rebate Application

Recent legislation in Michigan is driving utilities to adopt ambitious renewable energy and energy waste reduction goals. For Bay City Electric Light & Power, this legislation means expanding on our already proactive approach to an affordable and sustainable energy future.

Bay City Electric Light & Power is ahead of the curve on the renewable energy front. The legislation mandates utilities have at least 15% of their energy portfolio be derived from a renewable energy source by 2029. We're already at an average of 24%, surpassing the requirement and positioning ourselves as a leader in sustainability.

The legislation for energy waste reduction is Public Act 229. Beginning in 2026 utilities must offer programs to reach an annual electric savings of 1.5% of the prior year's retail electric sales through energy efficiency programs. We offer numerous programs and rebates to encourage energy savings which helps to meet these targets and reduce energy waste in our community.

As part of aligning with updated industry standards and the growing adoption of energy-efficient technologies, Bay City Electric Light & Power will be discontinuing our lighting rebate program. While lighting efficiency has significantly improved and become a market standard, we remain committed to providing innovative rebates and programs for other efficiency measures to support our customers in achieving energy savings.

We greatly value your feedback and continue to seek ways to enhance our services to better meet your needs. If you have any suggestions for improving the quality of our Energy Smart Program, please feel free to reach out by calling us at (989) 894-8350 or emailing EnergySmart@BayCityMI.gov. We look forward to hearing from you!

All rebates will be capped at purchase price, including any rebates and discounts applied at checkout.				\$	

 Recycling rebates are available for these items. Appliances must be operational at time of pick up. Large units that qualify receive a rebate of \$50 per unit and small units receive \$15 per unit. Maximum annual allowance for recycling rebate is limited to 2 large units and 2 small units per year. To schedule your pick up, please call (866) 341-8729.

DISCLAIMER: This offer is only valid for Bay City Electric Light & Power (BCELP) residential customers. Products must be installed in BCELP's service territory. BCELP Residential Rebate Application cannot be processed unless all appropriate fields in this application are complete. Rebates are paid on a first-come, first-serve basis. All rebate payments for approved applications are subject to the availability of program funds. This application is only valid for purchases made between January 1, 2025 and December 31, 2025. All applications must be submitted to the program office or postmarked by December 31, 2025. Purchases made between December 23, 2025 and December 31, 2025- determined by the invoice/receipt date must be submitted to the program office or postmarked by January 6, 2026. Rebates will be credited to the electric account of the installation address. Please allow 4-6 weeks for your rebate to be credited to your utility bill from the time your completed application is received by BCELP. Incomplete applications will result in a delayed or denied rebate. Total rebate value cannot exceed the purchase price (before tax) and will be capped accordingly. Details of this program, including rebate levels, are subject to change or cancellation without prior notice. Please be sure you understand the Terms and Conditions of this application. Full Terms and Conditions can be obtained at our office or by visiting www.baycityenergysmart.org. I **HAVE READ AND UNDERSTAND THE TERMS AND CONDITIONS. I CERTIFY THAT THE INFORMATION I HAVE PROVIDED IS TRUE AND CORRECT AND THE PRODUCT(S)/ EQUIPMENT FOR WHICH I AM REQUESTING A REBATE MEET(S) THE REQUIREMENTS IN THIS APPLICATION AND IN THE STANDARD TERMS AND CONDITIONS.**
